Summary

I want to pursue my love of technology and great software by combining the skills I developed over 15 years in market research for the financial services sector – including a high level of attention to detail, and the ability to excel in a fast-paced, deadline-driven environment - with the coding skills I've learned at General Assembly.

Experience

General Assembly Boston
Web Development Immersive Mar 2017 to Jun 2017

- Attended a rigorous 3 month coding boot camp focused on full-stack web development.
- Designed and built several full-stack single-page web applications using HTML, CSS, and JavaScript for front end and Ruby on Rails, PostgreSQL, and MongoDB for back end.
- Worked in teams and individually using Agile methodology and Git/GitHub for version control.

Market Metrics Boston, MA
Director of Global Research May 2015 to Mar 2017

- Responsible for all survey-based research conducted in the U.S. and Europe, including:
- Ensuring timely and accurate completion and delivery of survey results for over 20 yearly studies requiring roughly 30,000 interviews per year
 - Managing a team of roughly 25 Analysts, Associates, and Associate Directors working within the group

Director of Operations Sep 2011 to May 2015

- Responsible for the internal operations for all of Market Metrics via direct or indirect management of a team of roughly 35 employees, including:
- Internal Management, Resource Allocations
 - Professional Development, Promotions, and Compensation
 - Recruiting and New Hire Training

Associate Jan 2007 to Sep 2011

- Led development of a completely new syndicated research study that examined satisfaction and productivity of field and internal wholesalers for Asset Management and Insurance Companies.
- Managed all phases of the Life Insurance syndicated research cycle, from survey design to analysis of results.
- Led the launch of Market Metrics' first research outside of the U.S

Education

Dartmouth College
BA Economics and History 2002

GPA: 3.6. Coursework included Microeconomics, Macroeconomics, Statistics, Econometrics, Financial Markets and Institutions, International Trade; US History and foreign relations.
